

FastStart™ Rapid ERP Activation Program  
Kick-off-to-Go-Live in 100 hours

# Overview – FastStart™ REAP

The ever-increasing demand of customers for faster and better products and services as well as the need for businesses to meet the challenges of growing and tougher competition has never been great and obvious as it is today. Technology is at the forefront of meeting these challenges.

Smaller companies, which have fewer resources and lesser budget are at a higher risk of not being able to access world-class technologies that are critical to their success and survival. This could be detrimental to their survival, let alone success and profitability.

We believe that small businesses are the backbone of any economy in the world. We are committed to empowering small, fast-growing and start-up companies become competitive by providing them access to a world-class, modern ERP matched with an implementation approach that is practical, efficient and cost-effective.

Designed for Acumatica Cloud ERP Small Business and Standard Editions, FastStart™ is designed to help your business REAP the rewards of a powerful business software as quickly as you want to.
